with raglan sleeves and patch  
pocket

-wide, rounded neckline offers  
ease of dressing

Tent style cover-up dress with  
ruffle

-Elastic band at top, and closures  
at front on straps

# Functional Aspects of Collection

- Necklines: The asymmetrical neckline and the wider rounded neckline both offer easy on-and-off. The asymmetrical neckline opens/closes at the shoulder and is easy to simply grab, pull open, and then take the suit off down the legs. The wider rounded neckline is easy to simply pull on/off, but also has closure at center front for greater ease of dressing/undressing.
- Princess/ Style lines: offer better contouring to flatter the body and offer better support, as well as aesthetic interest. Under-bust band on Suit #2 also offers support.
- Cover-up Bottoms: length offers modesty when seated. Elastic/stretch waist offers comfort and dressing ease. The side front closures are easy to access and use, creating greater ease when dressing/undressing. Style lines, color blocking, and yoke designs provide aesthetic interest.
- Cover-up Tops: the overlarge t-shirt styles tops with the wide rounded neckline are easy to pull on-off over the head and provide comfort.
- Cover-up Dress: flare of tent style dress offer comfort and ease of dressing/undressing, as well as Velcro closures at the front of the straps and the elastic at the top of the ruffle.
